

## **The Louisiana Action Coalition Needs Your Financial Support**

The Robert Wood Johnson Foundation (RWJF) in collaboration with the AARP Foundation designated Louisiana as an Action Coalition for the Future of Nursing: Campaign for Action initiative. Louisiana is currently one of fifteen states designated as an Action Coalition charged with taking a leadership role in advancing health care.

The Louisiana Center for Nursing and AARP Louisiana have partnered to lead and facilitate the Action Coalition. Like the Robert Wood Johnson Foundation and AARP Foundation, we believe that our nation cannot adequately address the challenges facing our health care system without also addressing the challenges facing the nursing profession.

The Louisiana Action Coalition (LAC) only receives technical assistance from the *Campaign for Action* and it is for this reason that we are reaching out to you because we know you understand the value of a strong, educated nursing workforce that's able to practice to its full scope and education and has a voice on management teams, in boardrooms and during policy debates.

We are requesting your financial support to help establish the infrastructure for this initiative which includes developing processes for statewide communication, the establishment of a LAC website, developing workgroups across the state and other activities related to the Future of Nursing in Louisiana *Campaign for Action*.

Please fill out the sponsorship form found in the link below if you are interested in financially supporting this initiative.
